

**Actividad 6**

A group of students from Peru will visit your school. Since your class will be hosting the students, your teacher is trying to match each of you with a visiting student who likes to do the same things as you do. Listen to the questions and write the students' answers in the blanks. Then, write which of the activities you like better. Find out if the student has the same preferences as you do. Follow the model. You will hear each conversation twice.

**Modelo** Guillermo: cantar

A mí: Me gusta más bailar.
